

Thor3D Turntable - designed to simplify 3D scanning

Lightweight, stylish and easy-to-use, Thor3D turntable was designed to complement any hand-held 3D scanner. Stand your client on the table, start it and scan them with ease. There is no need to walk around your subject, which makes scanning easy and guarantees good results every time.

This turn-table was designed by the developers of several hand-held 3D scanners, so it is done right. The rotation speed can be adjusted and it can withstand weights of up to 200kg. The octagonal shape helps during scanning and the color cover can be replaced with ease, in case of dirt or damage.

MATERIALS: PLYWOOD, HIGH-IMPACT POLYSTYRENE

DIMENSIONS (DXHXW): 510 X 150 X 510MM

WEIGHT: 10KG

ROTATIONS SPEED: 0.25-6.25 RPM

POWER: 60W

MAXIMUM LOAD: 200KG
